[Model 1]

I didn't think you were afraid of anything. I'm really scared of dogs. I don't like them because when I was an elementary school student, a big black dog chased after me in the park. I had to climb up a tree to escape! I also don't like them because they have very sharp teeth and they bark very loudly – Woof! Woof! What a terrible noise! [66 words]

[Model 2]

I'm really scared of Kitty-chan. Most people think she's really cute, right? To me, she's like a horrible evil monster who is trying to take over the world. And what I find most terrifying about her is that she doesn't have a mouth. When I have a lot of stress, she sometimes appears in my dreams and I wake up screaming for help. [63 words]
